SUMMARY

Frontend Developer with 2 years of experience building SPA and responsive web apps using React.js, TypeScript, and modern JavaScript. Skilled in creating scalable, high-performance solutions for fintech, e-commerce, and corporate clients. 2nd place winner at a hackathon for a terminal app. Experienced mentor, guiding junior developers to launch production projects. FullStack MERN experience, including VPS deployment, authentication, REST API integration, and responsive UI. Based in Italy with a valid residence permit; open to full-time roles in the EU.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Redux Toolkit, Node.js, Express.js, Tailwind CSS, Vite, React Router

Databases: MongoDB, PostgreSQL, Firebase

Tools & Platforms: Docker, Git, Webpack, Babel, Jira, npm/Yarn, CI/CD

Testing & Optimization: Unit Testing, Code Review, Performance Optimization, Lazy Loading, Code Splitting

Soft Skills: Team Collaboration, Mentoring, Time Management, Cross-cultural Communication

PROFESSIONAL EXPERIENCE

Frontend Developer

Apr 2024 – May 2025

Nimax, remote from Italy, Moscow

- Developing SPAs and corporate websites using React.js, TypeScript, Tailwind CSS, HTML5, CSS3.
- Integrating REST APIs, optimizing state management (Redux Toolkit, Context API).
- Creating responsive, cross-browser, and accessible UIs.
- Optimizing performance with lazy-loading, code-splitting, and memoization.

Achievements: Improved hotel's site performance by 35%, built client dashboard with API integration, created reusable UI library for 3+ projects.

Stack: React.js, TypeScript, Redux Toolkit, Tailwind CSS, Axios, Node.js, Docker.

Frontend Mentor

Feb 2024 – Jun 2024

Result, remote, Russia

- Mentoring junior developers in React, JavaScript, CSS, HTML and TypeScript best practices.
- Reviewing code, debugging issues, guiding project completion.
- Increasing student job interview readiness through targeted technical training.

Frontend Developer (Junior)

Jan 2023 – Feb 2024

Zapal.agency, Saint Petersburg, Russia

- Build and maintain responsive UI components with React.js, TypeScript, and Redux; integrate REST APIs, manage state via Redux Toolkit/Context API, and optimize performance.

Achievements: Improved Showbox ~20%, delivered mobile adaptation for Senior Bay, developed secure login/registration for ИМИСП, created internal UI library.

Stack: React, TypeScript, Redux, Node.js, CSS, HTML, Git.

Frontend Developer (Internship)

Sep 2022 – Jan 2023

Result, Moscow, Russia

- Developing SPA blog with authentication and role-based access control.
- Integrating REST APIs, implemented search with debounce.
- Deploying application on VPS with Docker.

SELECTED PROJECTS

Grand Lotus Hotel — Responsive full-stack website with an intuitive online booking system, user dashboards, and an admin panel for managing rooms and users. Built with a modern full-stack. Stack: TypeScript, React, Redux Toolkit, Node.js, Express.js, MongoDB. [GitHub](#)

Developer Blog — Full-stack SPA featuring user registration, authentication, post management (CRUD), comments, search, and pagination. Built to showcase modern development practices using JavaScript, React, Node.js, Express.js, MongoDB, and Tailwind CSS. [GitHub](#)

EDUCATION

Result — Frontend Development (2022)

Loftschool — Frontend Base (2021)

FESTU — Master's in Economic Security (2021) (Russia)

LANGUAGES

- Russia — C2
- English — B1 (**EF SET English Certificate**)
- Italian — A2
